Mr. E. H. Jeffords,
General Asbestos & Rubber Division
of Raybestos-Manhattan, Inc.
North Charleston, S. C.

Dear Jeff,

Your request for resurvey of the plant of the General Asbestos and Rubber Division has been approved.

During Dr. Lanza's and Dr. McConnell's absence, I am in full charge of the Industrial Hygiene Laboratory and field services, so it was not necessary to have you send in any other form of request for the service.

I am tentatively scheduling this survey for April. Next week I shall be in Lancaster, Pa., where I have work for Armstrong Cork Company and the U.S. Asbestos Division.

Very truly yours,

J. W. Fehnel, Chemist
Industrial Hygiene Laboratory
