Mr. Sumner Simpson, Pres.,
Raybestos-Manhattan, Inc.,
Bridgeport, Conn.

Subject: Dust Settling Chamber

Dear Mr. Simpson:

As we have sent you copies of all correspondence which we have had with the Arkwright Mutual Fire Insurance Co. in regard to the construction of the dust settling chamber on the upper floor of Building #3, and also in regard to the construction of the tunnel on the roof of Building #3, we are attaching hereto a copy of a letter which we this day received from the Arkwright Mutual Fire Insurance Co., same being dated August 10th and signed by Mr. Carl G. Richmond, Engineer; also a copy of the report which was made to Mr. Richmond under date of August 9th signed by Mr. E. E. Crandall, Assistant Engineer, this last report being in connection with the combustibility of the dust. We are also enclosing a copy of the blue print to which we refer in the letter addressed to Mr. Richmond, which shows the bracing of the tunnel which we contemplate erecting.

As stated in the letter to Mr. Richmond, we are simply endeavoring to get the approval for the erection of this tunnel, although we are not taking steps immediately to construct same, for we first desire to find out whether the burlap baffles will prove satisfactory.

For your information, might advise that the burlap was received from the Armstrong Cork Co. and same is now being erected on the upper floor of Building #3 and we believe that this work will be completed some time during the present week and we will be able to cut in the new system during the early part of next week.

Yours very truly,
