THE RAYBESTOS DIVISION

of Raybestos-Manhattan, Inc.

INTER-OFFICE CORRESPONDENCE

TO Mr. M. F. Judd DATE Oct. 6, 1934.

SUBJECT

As you know, we have been working on reducing the dust condition at the high points shown up by Dr. Cook's dust count in Stratford.

One was the external brake grinder - 22.7 millions per cu. ft.
Operating pulverizer - 10.3 millions per cu. ft.
Operating opener - 16.7 millions per cu. ft.

Mr. Casey informs me that we have made changes at these three places which reduces the dust conditions materially.

Geo. E. Pope
