Manheim, Penna.

November 24, 1937

Mr. E. H. Jeffords,
General Asbestos & Rubber Division,
Charleston, S. C.

Dear Mr. Jeffords:

We acknowledge receipt of your letter dated November 22, which is very interesting and pleasing. You certainly have made tremendous improvements in the dust control, and we have decided to send our Mr. Luttenberger to Charleston in the near future in order that he may get all the information necessary to duplicate or improve upon your entire system of removing dust from the different departments.

I will give you sufficient notice of his trip. Perhaps you would like to get some data together before hand, including drawings and other details which would be helpful to us in improving our system here at Manheim.

I should like to have a similar report from the Health Officer of the State of Pennsylvania, as I consider this a very valuable document to have on file.

Very truly yours,

UNITED STATES ASBESTOS DIVISION
of Raybestos-Manhattan, Inc.
