Amco

December 17, 1936.

Mr. M. F. Judd, Sec'y.
Raybestos-Manhattan, Inc.
Bridgeport, Conn.

Dear Mr. Judd:

I am returning with this letter, the Memorandum of Agreement dated November 20th which I have signed, making our company a party to the agreement to conduct the experiments on asbestos dust.

I wrote to Mr. Simpson when he first approached our company on this subject and suggested that it would perhaps be a little more fair for the small producers to establish a low minimum fee, with each firm contributing on the basis of either the number of cards they operate or some other equitable basis. However, apparently this was not acceptable to the rest of the group.

I can suggest no other company than those listed on the Agreement except that it seems to me that the Canadian Asbestos Companies should be willing to take a part in this project. This might help swell the total to the suggested ten.

Very truly yours,

ASBESTOS MANUFACTURING COMPANY

H. D. LaMont
