Gentlemen:

Attention of Mr. R. B. Davis.

We are pleased to comply with your recent request, and enclose a reprint of the article, "Medicolegal Aspects of Silicosis," which we believe you will find of interest. We should like particularly to call your attention to that portion of the text referring to the value of the radiographic examination in the detection of the disease, also its function in the periodic physical examination of the individual.

If desired, our representative will be glad to call and discuss the radiographic phases with you, and we hope you will feel free to write us if we may be of further assistance in the matter.

Yours very truly,

EASTMAN KODAK COMPANY
