M

INDUSTRIAL HYGIENE FOUNDATION OF AMERICA, INC.

4400 FIFTH AVENUE

PITTSBURGH 13, PA.

December 2, 1946

Mr. S. Simpson, President
Raybestos-Manhattan, Inc.
Bridgeport, Conn.

Dear Mr. Simpson:

At the annual meeting of Members of Industrial Hygiene Foundation, held here at Mellon Institute, on November 7, the question was raised, "Who is going to take the leadership in advancing occupational health — the unions, government, or industry?" (Please see Annual Meeting Digest now being mailed separately.)

We bring this question to your attention in submitting the statement covering your company's membership for 1947 in Industrial Hygiene Foundation—the only national association of private industries for the advancement of employee health. This Foundation is not a commercial service with something to sell; rather, it is your company and 300 other firms joined together for research, and the application of that research, for the well-being of people at work.

This year the Foundation's staff has been strengthened with the appointment of another engineer and a full-time medical director. A new committee was created on Chemistry and Toxicology to serve Members. Two physicians were added to the Medical Committee, one as a consultant to the Foundation's staff. Round-table conferences were introduced at this year's meeting for physicians — for physicians, attorneys, and compensation men — for engineers — and for chemists from Member companies to enable these specialists to exchange pertinent, unpublished data and experiences.

Announcement is made here of the election of the following new trustees:

F.F. Colcord, Vice President	U.S. Smelting, Refining and Mining Co.
W.B. Given, Jr., President	American Brake Shoe Company
B.E. Kuechle, Vice President	Employers Mutual Liability Insurance Co.

Other trustees, members, activities, etc., are given in the enclosed circular which has just been issued. The above is an incomplete outline of some Foundation accomplishments in 1946. Through this cooperative undertaking, companies profit individually and industry profits collectively from the advancement of occupational health. For this reason we look forward to your continued participation and to enlarged opportunities for serving your organization in the year ahead.

Very truly yours

John F. McMahon
Managing Director

AIR HYGIENE FOUNDATION OF AMERICA, INC.

Membership Charges for 1937

Fees and dues for members of the Foundation have been fixed as follows:

Membership fee—Each new regular and individual member shall pay upon election a membership fee of Twenty-five Dollars ($25.00).

Annual dues—Each member shall pay dues for the year 1937 based upon the total number of employees of such member, in accordance with the following schedule:

Group	*Number of Employees*	*Annual Dues*
1	20,000 and over	$1,000.00
2	10,000 to 19,999	750.00
3	5,000 to 9,999	500.00
4	2,500 to 4,999	350.00
5	1,000 to 2,499	200.00
6	500 to 999	150.00
7	100 to 499	100.00
8	Less than 100	50.00
9	Employer Associations	50.00

Dues may be paid quarterly, and for a new member shall begin with the quarter during which such member is elected to membership.

The above classification is followed for convenience of reference in ascertaining the annual dues for companies by size as indicated by the total number of employees.

The rights and privileges of groups 1 to 8 inclusive are identical.

Group 9 is for associations of employer firms or corporations. Such members pay no entrance fee and will receive only one file copy of publications of the Foundation, which shall not be published nor substantially duplicated for use of constituent companies in such associations.
