Mr. Vandiver Brown, Attorney,
Johns-Manville Corporation,
New York City.

Dear Mr. Brown:

I am pleased to know that you located a man in the person of Mr. Otto L. Binder, whom you intend to employ in the capacity of taking Dust counts at yours and our Plant. Certainly we shall be governed by your judgment and see no reason for having Mr. Binder come to Bridgeport. I think you are very fortunate in getting a man of such ability, and one who is somewhat familiar with this type of work.

By the way, what type of X-Ray Machine have you put in, and what was the approximate expense of the whole installation? We are trying to make a decision now as to whether we shall put one in or have the Negatives and readings made by local talent.

Yours very truly,

MFJ-O. M. F. Judd.
