Dear Dr. Snoke:-

Receipt of yours of the 9th is acknowledged with thanks.

The daily reports which you have sent us are very helpful in our consideration and comparison for those employees examined.

It is appreciated that you could have given us more comprehensive information if you had the films made in 1935.

I am writing to Dr. McConnell today asking him for the comparisons between the old and new photographs, as soon as he can conveniently furnish this information. When this is received, I shall be glad to send you a copy.

With kind personal regards, we are

Yours very truly,
