of Raybestos-Manhattan, Inc.

MANHEIM, PENNA.

November 16, 1944

Mr. S. Simpson, President
Raybestos-Manhattan, Inc.
Bridgeport, Connecticut

NOV 2[illegible] 1944

Dear Mr. Simpson:

You will be pleased to learn that the Pennsylvania Department of Labor and Industry, Bureau of Industrial Hygiene, has just completed an analysis to determine the cleanliness of the air in the plant especially in the textile mill.

They have given us a clean bill of health. In fact they have stated they were greatly surprised to find the high efficiency of dust control and removal in our plant. The majority of their samples show dust concentration less than 5,000,000 particles per cubic foot and none of the samples show a dust concentration of over 7,000,000.

Before he left this morning Mr. Willard, who was in charge of this program, advised me he had no recommendations to make.

Yours very truly,

O. H. Cilley
