Director, Industrial Health Section
New York City, New York

Dear Dr. McConnell:-

Dr. Paul O. Snoke of Lancaster advises that he has now completed X-Ray photographing of those employees covered by the list in your letter of November 25, 1938.

Dr. Snoke has sent us daily reports for each of these employees but he has told us that he could not make a report as comprehensive nor the reports as accurate as would have been the case if he had had the photographs taken in 1935.

It would be greatly appreciated if you would give us a report showing the comparison of the conditions, as shown by the previous X-Ray examinations made in 1935 and those made recently.

Yours very truly,

UNITED STATES ASBESTOS DIVISION
