Fourth Silicosis Symposium

June 19—23, 1939

Saranac Lake, N.Y.

Monday, June 19:

MORNING

Introduction — Dr. L. U. Gardner, Saranac Laboratory

Summaries with Discussion:

- Etiology — Mr. D. E. Cummings, Saranac Laboratory
- Dust Counting and Analysis — Prof. P. Drinker, Harvard University
- Pathologic Anatomy — Dr. L. U. Gardner

AFTERNOON

- Pathologic Physiology — Dr. W. S. McCann, University of Rochester
- Clinical Picture — Dr. A. R. Riddell, Ontario Dept. of Health
- Roentgenology — Dr. E. P. Pendergrass, University of Pennsylvania

Tuesday, June 20:

MORNING

Disability, Its Causes and Clinical Evaluation — Dr. W. S. McCann

Average Industrial Worker:

- The Industrial Clinic and Its Functions — Dr. A. G. Kammer, Medical Director, Inland Steel Co.
- Incidental Pathological Findings — Dr. A. J. Vorwald, Saranac Laboratory

Reaction to Inert Dusts:

- Typical Pathologic Picture of Linear Exaggeration — Dr. L. U. Gardner
- Roentgenologic Appearances in Linear Exaggeration — Dr. H. L. Sampson, Trudeau Sanatorium

AFTERNOON

Results of Surveys:

Mining in Dolomite:

- Atmospheric Conditions — Prof. P. Drinker
- Clinical Picture and X-Ray Findings — Dr. H. M. Roebber, Bonne Terre, Missouri

Gypsum Industry:

- Atmospheric Conditions — Mr. T. M. Durkan, Saranac Laboratory
- Clinical Picture and X-Ray Findings — Dr. D. M. Brumfiel, Saranac Lake, N.Y.; Dr. H. L. Sampson

Cement Industry:

- Atmospheric Conditions — Mr. T. M. Durkan
- Clinical Picture and X-Ray Findings — Dr. D. M. Brumfiel; Dr. H. L. Sampson

Wednesday, June 21:

MORNING

Classical Silicosis:

Picher —Previous to 1932:

- Atmospheric Conditions — Mr. D. E. Cummings
- Clinical Picture — Dr. A. J. Lanza, Metropolitan Life Ins. Co.
- X-Ray Findings — Dr. R. R. Sayers, U. S. Public Health Service
- Pathology — Dr. L. U. Gardner
- Mortality — Mr. D. E. Cummings

Barre, Vt.:

- Atmospheric Conditions — Mr. E. D. J. Urban, Vermont Dept. of Public Health
- Clinical Picture and X-Ray Findings — Dr. L. E. Judd, Vermont Dept. of Public Health
- Pathology — Dr. L. U. Gardner
- Mortality — Dr. R. R. Sayers

AFTERNOON

Clinical and Roentgenologic Survey in Individuals Working in a Pure Silica Industry — Dr. E. P. Pendergrass

Rapidly Developing Silicosis:

Sandblasters:

- Clinical, X-Ray and Pathological Findings — Dr. H. L. Sampson; Dr. L. U. Gardner

Thursday, June 22:

MORNING

Reaction to Mixed Dusts:

Cement Industry — Raw Mills:

Atmospheric Conditions, X-Ray Findings
Dr. L. U. Gardner

Ontario Gold Mining — Variations with Content of Free Silica and Individual Mine Dusts
Dr. A. R. Riddell

Iron Ore Mining:

Atmospheric Conditions
Mr. D. E. Cummings

Clinical Picture and X-Ray Findings
Dr. L. E. Hamlin
Penn. Mining Co.
Norway, Michigan

Discussion — **Dr. H. F. Ringo**
Montreal Mining Co.
Montreal, Wisconsin

Dr. D. C. Pierpont
Newport Hospital
Ironwood, Michigan

AFTERNOON

Foundry Industry:

Atmospheric Conditions — **Mr. T. Hatch**
N. Y. State Department of Labor

Clinical Picture and X-Ray Findings
Dr. O. A. Sander
Milwaukee, Wisconsin

Hard Coal Mining:

Atmospheric and Clinical Findings
Dr. R. R. Sayers

Friday, June 23:

MORNING

Administration of Program of Prevention
Dr. C. Selby
Medical Director,
General Motors Corp.

Environmental Control in Program of Prevention
Mr. D. E. Cummings

An Employer's Viewpoint — **Mr. A. Fletcher**
St. Joseph Lead Co.

AFTERNOON

Functions of the State in Control
Mr. M. Bowditch
Mass. Dept. of Labor and Industries

The Insurance Carrier — **Dr. A. J. Lanza**

Legislation: Formulation — **Mr. T. C. Waters**
Occupational Disease Comm.
Baltimore, Md.

Legislation: Administration — **Mr. V. Wrabitz**
Chairman, Wisconsin State
Industrial Commission

The Fourth

SILICOSIS SYMPOSIUM

to be held

JUNE 19—23, 1939

at the

SARANAC LABORATORY

Saranac Lake, N.Y.

in connection with the

Trudeau School of Tuberculosis
