Dr. S. Holmes
Turner Brothers Asbestos Company Ltd.
Rochdale, England

Dear Steve:

I have just reviewed a report by Dr. Cralley, Keenan & Lynch - "Exposure to Metals in the Manufacture of Asbestos Textile Products" - which I found interesting.

I assume that you receive all of these reports. If you do not have this one, I shall be glad to send you a copy.

We have looked high and low for the dust count report made sometime ago at various asbestos textile mills in U.S.A. and no one has been able to find a copy. You will recall that we discussed this when we met in London, May 19th. If it pops up somewhere, I will forward a decoded copy to you.

In the previous file

With kindest regards, I remain,

Very truly yours,

R. L. Moore, Director
Research & Development Dept.
