Mr. S. Simpson, President,
Raybestos-Manhattan, Inc.,
Bridgeport, Conn.

My dear Mr. Simpson:

Dr. Gardner asks me to say that we are glad to send you the Annual Report of the Saranac Laboratory, which contains the paper read before the American Institute of Mining and Metallurgical Engineers in February, 1939. I am glad to place your name on our list permanently, and we are all at a loss to understand why this had not been done before.

Yours very sincerely,

Roy Dayton

Secretary.
