My dear Mr. Townsend:

Under date of January, 1935, the Department of the Interior, United States Bureau of Mines, issued Circular I.C. 6817, subject "Asbestos - General Information," by Oliver Bowles, and under date of October, 1935, the same department issued Information Circular I.C. 6857, "Review of Literature on Effects of Breathing Dusts with Special Reference to Silicosis," by D. I would suggest that you send for copies of both these circulars for your files.

Very truly yours,
