Dr. Alfred Kornblut
1539 Fairfield Ave.
Bridgeport, Conn.

My dear Dr. Kornblut:

You were speaking to Miss Garvey about the dust experiments being carried on by Dr. Gardner of the Saranac Laboratory.

I would like to have a written report from you as to your opinion of the value of this work, and also what you think should be done to carry on further experiments in the interest of the asbestos industry.

Very truly yours,

SS:G
