THE MANUFACTURERS ASSOCIATION OF CONNECTICUT

HARTFORD

March 20, 1940

Bulletin No. 746

INDUSTRIAL HYGIENE PROGRAM
at the
NEW ENGLAND HEALTH INSTITUTE

Ten interesting papers on subjects relative to occuptational disease control and industrial hygiene will be among more than one hundred papers which will be delivered at the New England Health Institute to be held in April at the Hotel Bond, Hartford.

We believe that time spent in attendance at these sessions will be very much worth while for Connecticut industrialists, all of whom are invited.

The following papers will be delivered at the industrial hygiene section of the institute:

Tuesday - April 16

11:30 -	New Aspects of Industrial Hygiene.	Clifford Kuh, M.D. Chairman, Industrial Hygiene Committe State Medial Assoc., New Haven, Conn.

Wednesday - April 17

9:30 -	The Public Health Aspects of Industrial Hygiene and the Part of Local Health Departments in the Problem.	R. R. Sayers, B.A., M.A., M.D. Senior Surgeon, Chief, Division of Industrial Hygiene, National Institute of Health, U.S. Public Health Service, Washington, D.C.
10:30 -	What Industry is Doing in the Prevention of Occuptational Diseases.	C. D. Selby, M.D., Medical Consultant, General Motors Corp., Detroit, Michigan.
11:30 -	What the Insurance Fraternity is Doing in the Control of Occupational Diseases.	Walter S. Paine, B.S., Manager, Engineering & Inspection Dept., Aetna Casulaty & Surety Cos., Hartford, Conn. Vice President for Engineering, National Safety Council. John B. Lamenzo, Hartford Accident and Indemnity Co., Hartford, Connecticut. Reuel C. Stratton, B.S., Supervising Chem.Eng., Travelers Insurance Company, Hartford, Conn.

F128278 09113

Wednesday - April 17 (Cont'd.)

0197 0238

2:00 - Industrial Hygiene Training for the Public Health Worker.	Philip Drinker, S.B., Ch.E. Prof. of Industrial Hygiene, Harvard School of Public Health, Boston, Mass.
3:00 - The Effect of Various Dusts on the Human Organsiam.	LeRoy U. Gardner, M.D., Dir., Saranac Laboratory for the Study of Tuberculosis, Saranac Lake, N.Y
4:00 - The Industrial Solvents; Their Physiological Effects.	Henry Field Smyth, M.D ,Dr.P.H. Prof. of Industrial Hygiene, University of Pennsylvania, Philadelphia, Pennsylvania.

Thursday - April 18

9:30 - Industrial Dermatitis - Incidence, Cause and Prevention.	Louis Schwartz, M.D., Medical Director, U.S. Public Health Service, National Insitute of Health, Washington, D.C.
10:30 - The Use of Respiratory Protective Equipment in the Protection of the Worker's Health.	William P. Yant, B.S., Dir. Research and Development, Mine Safety Appliances Company, Pittsburgh, Pennsylvania.
11:30 - Engineering Methods of Occupational Disease Control.	Benjamin F. Postman, B.S., Industrial Hygiene Engineer, Connecticut State Department of Health, Hartford, Connecticut

RADIO PARTICIPATION IN TENTH NEW ENGLAND HEALTH INSTITUTE

We have been fortunate in persuading some of the prominent speakers to broadcast during the Institute. All the Hartford radio stations have cooperated with us to the fullest extent in releasing time. Following is a schedule of the talks, all of which will be five minutes in length -- and also the frequency on which the radio stations may be located:

WTIC	1040
WTHT	1200
WDRC	1380
WNBC	1380

MONDAY, APRIL 15, 1940

10:15 A.M. WNBC "WHAT YOUR HEALTH DEPARTMENT DOES FOR YOU"
Carl E. Buck, Dr.P.H., Field Director of the American Public Health Association, New York.

3:15 P.M. WNBC "PROTECTING YOUR PUBLIC WATER SUPPLY"
Arthur P. Miller, S.B., Sanitary Engineering Consultant, United States Public Health Service.

6:30 P.M. WTHT "WATCHING THE CHILD DEVELOP"
Arnold Gesell, M.D., Professor Child Hygiene; Director Clinic of Child Development, Yale School of Medicine.

TUESDAY, APRIL 16, 1940

10:15 A.M. WNBC "FOODS THAT BUILD TEETH"
Frank W. Cady, D.D.S., Dental Consultant, United States Public Health Service.

12:00 M. WTIC "COMMUNITY EFFORTS FOR HEALTH"
Ira V. Hiscock, Sc.D., Professor of Public Health, Yale School of Medicine.

2:40 P.M. WDRC "TWO STEPS TO PROTECT YOUR CHILD"
C. E. Turner, Dr.P.H., Professor Biology and Public Health, Massachusetts Institute of Technology.

3:15 P.M. WNBC "HEALTH PROBLEMS IN SMALLER CITIES AND TOWNS"
James O. Wails, M.D., C.P.H., Director, Nashoba Associated Boards of Health, Ayer, Massachusetts.

HEALTH FILMS

0137 3243

Some of the newer health films in sound. To be shown in the Egyptian Room - Monday - 5 - 6 P.M.
Thursday 5 - 6 P.M.
Friday 5 - 6 P.M.

The Judy Series - 1 Double Reel
Judy's Diary 1 Double Reel
This shows desirable habit formation, feeding and physical care for a child from birth to 6 months of age.

By Experience I Learn - 1 Double Reel
This shows Judy from 9 to 18 months of age. She learns to walk, climb, feed herself and play by herself and with others

Now I am Two - 2 reels

Motherhood - Life's Most Important Job - 1 Reel
This shows the need for adequate prenatal care - careful physical examination at stated intervals and daily food and rest habits.

Behind the Smile - 1 Reel
This in color, shows the importance of adequate dental care and the part that nutrition plays in dental health.

Told by a Tooth - 1 Reel -
A new sound film of particular interest to lower grade children. Shows foods needed for building sound teeth.

Your Public Health Nurse 1 Reel
This shows modern methods in public health nursing work in the community

Science and Modern Medicine - 3 Reels
This describes the nature of syphilis and gonorrhea and the need for and nature of proper treatment. Also deals with reproduction.

With These Weapons 1 Reel
Some of the dramatic public health measures which have been taken to stamp out "public health enemy #1".

More Life in Living - 1 Reel
Emphasizes part nutrition plays in good health - of special interest to adults

Every Drop a Safe One - 1 Reel
This shows the various steps taken in a modern plant in the treatment and purification of water.

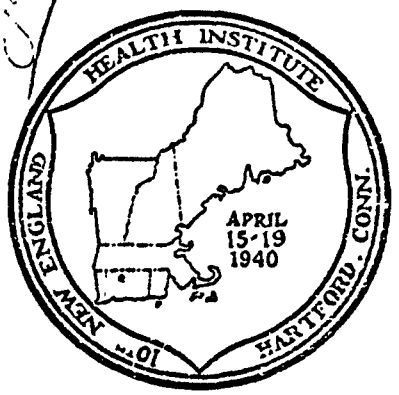

Let My People Live - 1 Reel
Produced at Tuskegee Institute - negro cast. Excellent quality, telling appeal for both white and colored.

Cloud in the Sky-
Colorful story on tuberculosis with scenes laid in Mexico. Produced by National Tuberculosis Association for those southern states that deal with Mexicans.

Behind the Shadows - 1 Reel
A story of tuberculosis spread through a contact in the home and discovered during a tuberculin test survey of a high school group.

IMPORTANT—YOU SHOULD READ THIS

GENERAL INFORMATION

This is the Tenth New England Health Institute. Started in 1922 in Connecticut it was then held in rotation in Massachusetts, Maine, New Hampshire, Rhode Island and Vermont. Starting on a repeat series, the seventh New England Health Institute was held in Hartford in 1929, in Massachusetts in 1930 and in Maine in 1931. Then came the depression years when public health activities were somewhat curtailed in New England as well as in other states throughout the country. While that influence remained as a handicap for a number of years, more recent years of active growth and development in public health have indicated the need for a repetition of this cooperative endeavor. As a result the sponsors now present the Tenth New England Health Institute.

What the New England Health Institute Is

This is not a convention but rather an opportunity to "go to school" again and learn from those in the forefront of their profession the trends and new developments in public health which give promise of accomplishing better results with less effort.

The Institute is sponsored by the New England Health Departments and those other state and federal departments indicated on the cover of this program.

The Faculty

The "Faculty" consists of those who have taken the lead in their respective fields of public health. They have generously accepted our invitation to take part in the Institute program and have donated their service to the Institute for the promotion of public health in New England.

Lecture Hours

All meetings will be held at Hotel Bond, with meeting rooms indicated on the program.

Lectures begin at 2 P. M. on Monday, April 15 and continue each day through Friday, April 19 with four lectures given simultaneously each hour. Lectures are given daily promptly at 9:30, 10:30 and 11:30 A. M. and 2:00, 3:00 and 4:00 P. M.

Closing signals will be given in each lecture hall at five minutes before the hour. This will enable "students" to reach their next lecture on time. Prompt observance of this will be appreciated.

One evening session will be held on Wednesday, April 17. Health Education has been scheduled for this so that all those concerned with public health in its varying aspects may attend. This session will begin promptly at 7:30 P. M.

The Banquet Session

On Tuesday evening at 7:00 P. M. a banquet will be held in honor of the Faculty. This will be the most enjoyable occasion of the entire week. Speakers are listed in the program.

Luncheon Sessions

Arrangements have been made for special groups at luncheon periods as listed on the program. Tickets will be sold at a special booth in the lobby. This leaves members in attendance free to relax or make their own plans.

Registration

Registration begins on Monday at 8:30 A. M. and will continue throughout the week at registration desks in the lobby of Hotel Bond.

A registration fee of one dollar is charged. This will admit to any one lecture, or for the entire week. An identifying button will be issued on registration. This button is your ticket for admission. Please Wear It.
