Dr. Leroy U. Gardner, Director
The Saranac Laboratory for the Study
of Tuberculosis
7 Church Street
Saranac Lake, N. Y.

My dear Dr. Gardner:

Enclosed find copy of a letter from Dr. Kenneth M. Lynch, who is the doctor in charge of our spinning plant at North Charleston, S. C.

I think as a matter of information I should pass this on to you.

If there are any questions you would like to ask Dr. Lynch, would suggest that you correspond with him direct.

Very truly yours,

SS:G

Enclosure

President
