The Saranac Laboratory
Saranac Lake, N. Y.

Attention: Dr. Gardner

Dear Mr. Gardner:

Attached please find a Laboratory report by our Mr. Fred Wheadon to our Mr. C. S. Batchelor which is a partial answer to your letter of June 26th. We do not have all of the information at hand that you desire.

The next time you come down to New York I would like to have you visit with our Chemists at Stratford who could undoubtedly arrange to supply you with further information on your problems.

Sincerely yours,
THE RAYBESTOS DIVISION
of Raybestos-Manhattan Inc.
