Mr. Vandiver Brown, General Attorney
Johns-Manville Corporation
22 East 40th Street
New York City

My dear Mr. Brown:

I have the copy of Dr. Gardner's report on asbestos dust experiments, and the results are so surprising that I do not know what to say or think.

They are entirely beyond anything I expected, and I cannot help thinking there is something we have missed in the way of actual conditions. I thought surely that the fineness to which we had ground the asbestos would produce considerably different results in one year's time.

I am sending this report to the factory and any comments of interest I receive from the doctors, I will let you have.

Very truly yours,

S.:G
