Attention: Mr. M. F. Judd, Secretary

My dear Mort:

Agreeable with your request I enclose herewith the Memorandum of Agreement duly signed, and I suggest, for the purpose of record, that whoever draws up the agreement with Dr. Gardner that a copy be furnished to each one who has endorsed the agreement.

As matters stand, no one except those who negotiated with Dr. Gardner have a record of what we are going to get, and if negotiations are carried on by Johns-Manville there is a possibility that the interests of a great many of the companies signing can be neglected unintentionally, and for that reason I believe that the purposes should be outlined so that each one will know that complete information will be furnished by Dr. Gardner as the different results develop so that this information will not have to go through Johns-Manville Company. And if it is not the purpose that Dr. Gardner and his organization will recognize the different members of the group, then I should like to be advised accordingly.

It is my thought that if this agreement is drawn and presented to the different companies in the Asbestos Industry, more are likely to be interested and possibly every company will then line up.

I will be glad to have your reaction in this matter.

Yours very truly,

GATKE CORPORATION

Thomas L. Gatke

President
