February 1, 1937

Raybestos-Manhattan, Inc.,
Bridgeport, Connecticut.

Attention: Mr. S. Simpson, President

My dear Mr. Simpson:

It was not my intention to indicate that I was unwilling to go along on the dust proposition, nor did I want to sign the agreement with any stipulation.

I think we all have a common interest in the proposition, but I think our interest might justly be based on the number of employees the different companies have. I doubt that it needs to be drawn to quite so fine a line, but surely I would not expect that my interest would equal Raybestos' interest, nor Johns-Manville, Keasbey & Mattison, or even Thermoid, and since there was no stipulation to govern excepting that the number of companies who signed up would divide the expense equally, I felt we should have a better understanding before we were definitely committed and I think you will agree to the justification of our position.

I will be glad to have your further reaction.

Yours very truly,

GATKE CORPORATION

Thomas L Gatke

President
