November 7, 1941.

Dr. Leroy U. Gardner,
Director,
The Saranac Laboratory,
Saranac Lake, N.Y.

Dear Dr. Gardner:

Yours of November 5th has been received and I am glad to note therefrom that the asbestos experiments are nearing completion. I appreciate fully that considerable work will have to be done with the mass of data assembled during these five years before the definitive report can be expected, and I also note you intend to continue a few months beyond the termination of this year a portion of the experiments with one of your dust rooms. This procedure, of course, is entirely agreeable to us.

Sincerely yours,

Vandiver Brown,
Secretary.
