May 15, 1935

Mr. M. F. Judd,
Raybestos-Manhattan, Inc.,
Bridgeport, Conn.

Dear Mr. Judd:

Replying to yours of May 13th, Mr. Binder was at our Manville factory on April 3rd, 4th and 5th and the expenses incurred there were charged entirely to Johns-Manville.

During the entire week ending April 13th Mr. Binder was at Lancaster, Pa. assisting Mr. Fehnel on what I assume was some other Metropolitan project involving dust counting. His expenses for this week, amounting to $48.55, were divided equally between Johns-Manville and your Company.

During the week ending April 20th Mr. Binder was at Manheim for four days and his expenses, amounting to $37.20, were charged entirely to your Company.

During the week ending April 27th Mr. Binder was with Mr. Fehnel in Montreal and Quebec, Canada. His expenses for this week were $64.66 and he directed us to charge $20 to your Company and the remainder to ourselves. Since he and Mr. Fehnel were on their way to our Asbestos mines the entire railway and pullman fares were charged to Johns-Manville and other expenses were divided.

The foregoing items will account for the expense item of $81.48 appearing on the charge made to you for the month of April.

As you will recall, we are no longer paying Mr. Binder's expenses when he is engaged in work in New York. Mr. Binder is at present in New York having just completed the taking of dust counts at our Asbestos mines and at our Nashua, N. H. factory.

Recent reports from Drs. Lanza and McConnell and from Mr. Fehnel indicate that Mr. Binder is doing very satisfactory work and that all grounds for complaint by reason of slackness or appar-
