CIT 0425

JOHNS-MANVILLE CORPORATION

TWENTY-TWO EAST FORTIETH STREET

NEW YORK, N.Y.

EXECUTIVE OFFICES

March 11, 1936.

Mr. M. F. Judd,
Raybestos-Manhattan Inc.,
Bridgeport, Conn.,

Dear Mr. Judd:

The Metropolitan Life Insurance Company has completed the Dust Survey of our Pacific Coast Plants and Mr. Fehnel and Mr. Binder have returned to New York. With the exception of the analysis of certain samples taken at our plants and the writing up of the formal reports in connection therewith, the Metropolitan survey of our two companies is now practically completed.

I am calling this to your attention so you may know that Mr. Binder is now available should you desire him to go to any of your plants and take dust samples with the view of ascertaining the efficiency of equipment installed since the date of the earlier reports.

I recommend that you endeavor to see me at the earliest date you may find convenient when in New York for the purpose of discussing the program from this point forward as it relates to our cooperative efforts and with particular reference to Mr. Binder.

Bjork Monday

Very truly yours,

Vandiver Brown
