Re: Asbestos Dust Experiments

Dear Mr. Simpson:

Attached you will find a copy of a letter of July 15 from Dr. Gardner which I am sure will interest you.

Although it will delay further the completion of his final report, I agree with Dr. Gardner that the additional material concerning clinical and x-ray experience with asbestos dust in Canada and the United States will be an important and valuable supplement to the experiments he has already performed and, since it will involve no additional expense, I have approved his proposal.

Sincerely yours,

Vandiver Brown
