Re: Asbestos Dust Experiments

Dear Mr. Simpson:

I wish to acknowledge and thank you for yours of December 22nd conveying the very good news that seven members of the industry have to date agreed to share in the underwriting of Dr. Gardner's asbestos dust experiments.

I assume that the entire list will have been canvassed within the very near future and I will thereafter be provided with the original of the agreement, upon the basis of which I will be in a position to invoice the other subscribers for their pro rata portion of the first quarterly payment of $1250 made by Johns-Manville Corporation on behalf of the group.

With very best wishes for a Happy and Prosperous New Year, I am

Sincerely yours,

Vandiver Brown
