Re: Asbestos Dust Experiments - Dr. Gardner

Dear Mr. Simpson:

I have your two letters of December 29th.

I was interested in Dr. Gardner's comments upon Dr. Shull's paper on asbestosis but I am not familiar with the article to which his criticism is addressed. Would appreciate your telling me where I might find it.

I received a letter from Mr. Silverman of Union Asbestos & Rubber Company advising me he had received from you the Memorandum of Agreement and stating he did not wish to commit his Company for more than $200 to $250 per annum. I have just replied and suggested that he sign the Agreement and add a phrase to the effect that his Company's contribution was limited to that amount.

Very truly yours,

Vandiver Brown

P.S.- Since writing the above, I have received yours of December 31st advising that you have ordered for me a reprint of Dr. Shull's article.
