Mr. Sumner Simpson,
President,
Raybestos-Manhattan, Inc.,
Bridgeport, Conn.

Dear Mr. Simpson:

Supplementing Dr. Gardner's latest report on his experiments with asbestos dust, I am enclosing herewith copy of a letter containing the comments of Dr. A. J. Lanza on the results thus far attained.

You will note that in his opinion it would be well worth while to have Dr. Gardner pursue his experimental work to its conclusion.

Sincerely,

Vandiver Brown,
General Attorney.
