Mr. B. F. Postman
Industrial Hygiene Engineer
Connecticut State Department of Health
Hartford, Connecticut

Dear Mr. Postman:

The following is a correspondence received from Mr. G. Doherty, Chairman of the Foremen's Club:

> "I want to thank you for the opportunity afforded the Foremen's Club and the supervisors to hear such an interesting and instructive lecture given by Mr. Postman on 'Industrial Hygiene.' On a poll taken the following day, each foreman agreed that his lecture and this meeting was one of the best we have had to date and expressed a desire to have Mr. Postman return at some future date."

Mr. Doherty has expressed the feeling of the entire Club, as well as my own, and we all join with him in thanking you for your most instructive talk and also for your visit to the plant last Thursday.

We wish to assure you that any future visit to The Raybestos Division will be most heartily welcomed.

Very truly yours,

THE RAYBESTOS DIVISION
OF RAYBESTOS-MANHATTAN, INC.

W. E. Casey
