Mr. O. H. Cilley, Assistant General Manager
United States Asbestos Division
of Raybestos-Manhattan, Incorporated
Manheim, Pennsylvania

Dear Mr. Cilley:

In reply to your letter addressed to Dr.Lanza, requesting the names of concerns having experience in dust removal operations, the following firms are represented on the committee dealing with fundementals relating to the design of exhaust systems of the American Standards Association:

The Blaw-Knox Company
Blawnox, Pennsylvania

B. F. Sturtevant Company
Boston, Massachusetts

Carrier Engineering Corporation
Newark, New Jersey

I would suggest, however, that before consulting these companies, you visit the General Asbestos & Rubber Division of Raybestos-Manhattan,Incorporated,in North Charleston,South Carolina. Mr.Jeffords has done an excellent job in controlling dust in that plant, and I think you will be interested in seeing the results.

Very truly yours

W. J. McConnell, M.D.
Assistant Medical Director
Director Industrial Health Section
