THE TRAVELERS MEMORANDUM

DATE March, 1980

TO TRAVELERS ASBESTOS SEMINAR PARTICIPANTS
CAPTIVA ISLAND, FLORIDA

RE: PRODUCT INFORMATION

The attached data sheets and exhibits were compiled from answers to interrogatories of several defendants named in the Los Angeles, California, lawsuits involving employees of the Long Beach Naval Shipyard. Some information was also gathered through discussion with attorneys representing Johns-Manville in various jurisdictions. Although most of the data in this booklet was drawn from the Southern California litigation. much of it should be useful in jurisdicitions other than California.

The intent of this booklet is to provide ready access to information regarding the products of our co-defendants. One must keep in mind the source of information contained herein and recognize that some of it may be self-serving.

Should you have similar information concerning defendants not included in this booklet, or if you are aware of information provided in jurisdictions other than California which conflicts with the data included herein, you are urged to circulate such information to the recipients of this booklet.
