PERSONS INTERVIEWED: Rob Miotke - Technical Petroleum Salesman

CALL OBJECTIVE: Make joint calls

RESULTS OF CALL:

Thiem Corp.- Milwaukee, WI - Dale Bernat - Purchasing Agent
Jim Thompson - Technical Director

Things are going well for us here. They have the same problem as we do. Chrysler is their largest customer and Thiem is in a bit of a slump because Chrysler is. When they rebound, so will our sales. Jim asked to be kept up-to-date on new applications and toxicology. I promised we would keep him informed.

Delta Oil Corp.- Milwaukee, WI - Jim Barnes - Purchasing Agent

Delta uses about 1 pallet of RG-144 every 2 months in a foundry adhesive. They use no other thickeners/thixotropes so we have reached our potential here.

Hentzen Chemical Coatings - Milwaukee, WI Ken Maus - Purchasing Agent
Fred _____ - Chemist

This was a great call for Rob to be on. Hentzen threw out asbestos 5 years ago and both Ken and Fred said that there was a company policy against its use. We pressed on undaunted and finally got Fred to agree to try a sample of RG-244. Rob will follow-up.
