- ☐ Health & OSHA Information Blue Book
- ☐ Dust Count Report
- ☐ Other, specify below

PLAINTIFF'S EXHIBIT UC-650

PERSONS INTERVIEWED: Krish Bhatt - Chemist

CALL OBJECTIVE: Follow up on request for RG-244 lab sample.

RESULTS OF CALL:

Sample received but no work on it as yet due to other higher priorities. Very little information obtained as Kris not only speaks with a strong accent but also stammers rather badly. Apparently they are interested in evaluating 244 in some type of a coating in order to improve viscosity, flatten, and to act as a desiccant (?). I agreed that they should carry out the necessary basic lab work and then we would try to give them assistance if required.

FOLLOW-UP ACTION REQUIRED:

GLD - Will make a convenience call later in the year but from all outward respects it does not look like a winner.
