UNION CARBIDE CORPORATION
P.O. Box 579 Niagara Falls, N.Y. 14302

By G. L. Dickson

Date 1/24/73

Full Name	Kent Industries	Interviewed	
Address	3024 East Seminary Dr. Fort Worth, TX 76119	Joe Donahue - Plant Manager	
Mfrs. of	Caulks, sealants, & auto repair products		

First meeting. Joe has taken Len Brasia's place who died last month. No problems with RG-144 in their butyl sealants. Toxicology is a big concern, however, and they are facing it squarely. Setting up a medical check and records, clothing changes, etc. Intend to restrict its handling to 1 or 2 people. Joe wants OSHA standards and list of recommended respirators which I will send.

Misc.

BLI Kent is one of about 14 companies belonging to Premier Industrial Corp. which I "think" is headquartered in Indianapolis. Their director of technical services is Bob Crist, 4415 Euclid Avenue, Cleveland, Ohio 44103. He apparently is in charge of all of Kents' formulations since Forrest Simmerman left the Fort Worth plant last year. Blair, could you pursue this the next time you are in Cleveland.
