Mr. John Myers
Union Carbide Corporation
P. O. Box 579
Niagra Falls, New York 14302

Dear John:

Enclosed are 3 copies of the final on-site report. We're offering to send additional copies of the supporting reports on the 4 well locations to anyone who asks. Harry will notice that we re-keyed his last two figures for simplicity. The little boxes and triangles didn't print distinctively enough.

Also enclosed is a sample of the envelope and 2 page recap that has been mailed to 14,945 names selected from the Oil and Gas Journal list. Included are the management, engineers, superintendents, foremen and procurement people with the Service Companies, Drilling Contractors and Oil Operators. The areas covered are the U.S., Canada, U.K. and Europe. In addition, supplies of the full report and the 2-page recap have been sent to all our field men. We've also sent the entire package to key people and companies on our own mailing list. All in all, we should get some very extensive coverage out of the program.

Received the $2,000.00 check, and it is much appreciated. We'll pay the net truck freight on the Galena Park shipment as soon as the invoice gets here. I can't get with Harry (Wyatt) on the price changes until the latter part of next week. Will write you as soon as we get our thoughts together.

Best regards to all,

MONTELLO, INC.
