Dear Bill;

Attached are the revisions I suggest you make in the new addition of your manual, "Characteristics of Thermal Insulating Materials". In most cases, these suggestions deal with omission or the proper placement of Eagle-Picher materials in their correct categories.

As we discussed by phone, several firms distribute Eagle-Picher materials under their own private brand name. At one time, we thought it would be wise to alert them of this tabulation you are preparing. But that would mean you would have to do a great deal of checking to make sure all the data was correct. To facilitate your work the following tabulation shows the private brand names for products made by Eagle-Picher but distributed by others.

1. Eagle-Picher Super "66" Cement

   Bigelow-Liptak Corp., G-18 Cement

   Fiberglas Engineering & Supply Co., Fenco Mineral Wool Cement

   A. P. Green Firebrick Co., Insulating Cement

   North American Refractories Co., Narco Staz-On

   General Refractories Co., Grefco Insulating Cement

   Owens-Corning Fiberglas Co., O-C 660 Cement

   Union Asbestos & Rubber Co., Unarco #330 Cement

2. Eagle-Picher One-Cote Cement

   Bigelow-Liptak Corp., FC-11 Insulating Finishing Cement
