INDUSTRIAL HYGIENE DEPARTMENT
TEXAS CITY, TEXAS

March 27, 1990

To: Bob Thomas

Copy: Dick LaCour
Peri Yalcinkaya

Subject: Asbestos/Batchstill Column Bldg 50

Samples of suspected asbestos material were analyzed on Monday, March 26. These samples were taken from section 3, 5, top, and top cone on the column. All samples contain asbestos, specifically, chrysotile and amosite. If any renovation is planned, please complete the "Notice Of Intention To Demolish Or Renovate A Structure Or Facility Containing Asbestos Material" form and send it to Peri or me. This form can be found in Plant Procedure SH-5.6.

If you have any questions, please direct them to Dick or me.

Thanks,

Andrew Jackson
