Subject: OSHA Inspection
Building 74
March 18, 1977

Dear Mr. Engle:

The Texas City Plant was visited by an OSHA Compliance Officer, Mr. Don Donnelly, at approximately 1:45 p.m. March 18, 1977. He was escorted by Mr. J. B. Leverton to Mr. R. Van Mynen's office and joined there by Mr. R. J. Taylor and Mrs. A. P. Yalcinkaya.

The visit was initiated upon a complaint concerning the Bldg. 74 conference-lunch room. The complaint stated that employees were not allowed into the room during their morning and afternoon coffee breaks due to the meetings that were in progress at such times; therefore employees had to take their breaks at the locker room area where an unsanitary situation might be present.

The Compliance Officer was supplied a roster of hourly employees upon his request to verify that the complainant was an employee. Mr. Donnelly indicated that he wished to inspect the locker room area for any unsanitary conditions. He also stated that he did not wish to take any pictures.

The inspector, accompanied by Mr. Taylor and Mrs. Yalcinkaya, met Mr. Sam Munn, the union representative, and Mr. H. K. Decker, Area 2 Maintenance Superintendent, at Bldg. 74. Mr. Donnelly privately

interviewed Mr. Munn and Mr. R. L. Windham, a rigger apprentice, in the conference room. In addition to the locker room area, Mr. Donnelly inspected the men's room and the adjoining shower room.

In the closing conference with Mr. Van Mynen, the Compliance Officer stated that he found no violations of the OSHA standards. However, he did suggest that the waste containers be kept covered.

No citation is expected to result from this inspection.

Yours very truly,

A. Perihan Yalcinkaya
