Ms. A. P. Yalcinkaya

SUBJECT: OSHA Inquiry

On November 1, 1984 at approximately 8:15 a.m., a call was received at extension 5199 (Ms. C. Shelton's phone) from OSHA Compliance Officer Mr. Roy Piggee. Mr. Piggee subsequently asked for me and requested information on UCC high density polyethylene.

Mr. Piggee specifically asked for a Material Safety Data Sheet on UCC chemical #348, High Density Polyethylene. Mr. Piggee said he was interested in the chemical components, not the component concentrations, and briefly questioned me on the chemical. I stated that I would contact someone within the organization who was more familiar with the material and have this person contact his office (Houston 750-1744). When asked the nature of the inquiry, Mr. Piggee stated that his office had received a complaint on an extrusion process.

In your absence, I referred Mr. Piggee's request to Ms. A. P. Yalcinkaya for follow-up.
