From TED STEICHEN

Ext. 5528

Subject: On January 29th I met with Sam Norwood and others at Solvent Vinyls. Action is being taken on the problem of the extractor residues. André Carter and I will be in touch with each other to resolve this issue. Industrial Hygiene concerns about Carbide people handling this material were expressed. I will continue to advise you, Kirk, as proposals develop. I suggest you contact André if you wish to express your viewpoint directly.
