March 27,1980

Union Carbide has received an OSHA citation indicating a serious violation of section 5(a)(1) of the Occupational Safety and Health Act of 1970. The citation alleges:

" An employee who was medically restricted from the chemical area of the plant because of his sensitivity to amine compounds, was assigned to the chemical area with management's knowledge."

An informal conference has been held with Mr. R. Davis Layne, OSHA Area Director. Carbide may elect to contest the citation.
