REVISED PROCEDURE FOR DISPOSAL OF ASBESTOS

BROWNING-FERRIS INDUSTRIES (BFI) WASTE SYSTEMS HAS OBTAINED PERMISSION FROM THREE GOVERNMENTAL AGENCIES TO COLLECT OUR ASBESTOS-CONTAINING INSULATION FROM THEIR TRASH CONTAINERS IN THE PLANT AND HAUL IT TO THE SANITARY LANDFILL IN THEIR COMPACTER-TRUCK, CO-MINGLED WITH THE REST OF THE PLANT'S TRASH. THEREFORE, IT IS NO LONGER NECESSARY TO KEEP THE ASBESTOS SEGREGATED IN A DEMPSTER DUMPSTER CONTAINER AND HAULED TO THE SANITARY LANDFILL WITH A TRIP TICKET. THE PLASTIC BAGS CAN BE PLACED INTO THE NEAREST BFI TRASH CONTAINER.

HOWEVER, PLEASE CONTINUE TO FOLLOW THE SHARE NOTIFICATION AND SAFE HANDLING PROCEDURE CONTAINED IN THE PLANT'S PROCEDURES MANUALS. IT WILL STILL BE NECESSARY FOR THE SHARE DEPT. TO KEEP TRACK OF THE ESTIMATED AMOUNT OF ASBESTOS INSULATION GENERATED AND DISPOSED OF, FOR REPORTING TO THE AGENCIES.

PLEASE LET US KNOW IF YOU HAVE QUESTIONS ABOUT THIS REVISED PROCEDURE. THANKS FOR YOUR CONTINUED COOPERATION.

Bill
