Mr. J. L. Worstell
Environmental Protection Coord.
Union Carbide Corp.
South Charleston Plant
P.O. Box 8004
South Charleston, WV 25303

Dear Mr. Worstell:

The West Virginia Air Pollution Control Commission (WVAPCC) enforces the National Emission Standard for Hazardous Air Pollutants: Subpart M - National Emissions Standard for Asbestos. Pertaining to asbestos demolition and renovation projects, § 61.146 of said regulation requires that a written notice of intention to demolish or renovate be provided. Such notices shall be delivered as follows:

1) At least 10 days before demolition begins, if such demolition involves friable asbestos materials in the amounts of at least 260 linear feet on pipes or at least 160 square feet on other facility components,

2) At least 20 days before demolition begins, if such demolition involves friable asbestos materials in the amounts of less than 260 linear feet on pipes and less than 160 square feet on other facility components,

3) At least 1 day before demolition begins, if such demolition is being conducted under order of a State or local government agency because of the danger of imminent collapse,

4) At least 1 day before renovation begins, if such renovation involves friable asbestos materials in the amounts of at least 260 linear feet on pipes or at least 160 square feet on other facility components,

5) At least 1 day before renovation begins, if such renovation involves friable asbestos materials in the amounts - such that the predicted additive amounts over a period of time (not to exceed one year) - are at least 260 linear feet on pipes or at least 160 square feet on other facility components.
