PLAINTIFF'S EXHIBIT

UC-2109

Asbestos Insulation Mtg 6/3/86

1) Verification of asbestos / non-asbestos insulation
2) JA on Asbestos standard
3)

Recommendation

1) Spot check Mike Kupp work & develop correction factor
Need to be reasonably comfortable w/ estimate.
Get JKC & CWS bought in
Unique nature of estimate, will be maintaining cost after project is over
High degree of confidence that will correct known deficiencies today with a sum
85%-90% comfort level
Time doesn't stand still
Containment, not removal, will require maintenance of asbestos insulation.

2) Management sys in place in maint / control mechanisms
Innovative, cost effective systems
Pursue with JFD
Check on techniques for asb removal - plants & comparison ; will deal with by using good people
Hrly use
Maint con in unit to be focal point for identifying equipment doesn't require to be repair

Target for 7/1 pres to Mgmt group
