Subject Asbestos Competent Person Training

As you know, the OSHA Asbestos Standard 1926.58 requires employers to designate a "Competent Person" to perform or supervise the asbestos removal, demolition, and renovation operations. It is further stated in the standard that the designated competent person shall be trained in all aspects of asbestos and its removal related procedures. The standard also requires that the training of the competent person be conducted by a comprehensive course such as one conducted by an EPA Asbestos Training Center. There are five training centers in the U.S., one of them is in the University of Kansas.

The National Asbestos Training Center, the University of Kansas, has agreed to come to our location to conduct this training. I have already talked to each of you about this plan and have agreed to the number of participants you will send for this training. The schedule for the training is as follows:

Date: April 8, 9, and 10
Time: 8:00am
Location: Technical Center Building 701-Auditorium

UCC 006641

The total cost of the training will be equally divided per participant. At this time, the cost is estimated to be approximately $325.00 per person. Please let me know as soon as possible what charge number(s) we should use to transfer the cost for employees you have agreed to send for this training.

If you have any questions, please give me a call at extension 3750.
