Asb Abatement Project Mtg 4/30/07

JKC – where is status of Maint Proc

RGH/CBH – Powerhouse Equip contract re-authorization

JLW – environmental issues in Wyeth's letter

For Asbestos Insulation Project

1) Get pre-approval 930 for $250M (no hold account)
2) when approved, stop S.O. changes & charge directly to 930
3) work on scope
4) decide on allocation factors. unless are grossly off, will not change
5) pull out 1997 expenditures for asb insulation for GFH by 5/5

Jack,

Per our phone conversation, attached is the subject letter with environmental concerns listed on page 2. (This was based on our "old" Maint Procedure)

As I mentioned, I don't feel they belong in the Maintenance procedure, but am concerned about our ability to expedite endorsement w/o inclusion.

Are there EP Dept policies that address these items that can be referenced in urgent/multiple?

Thanks for your help.

Jim D.
