SUBJECT: Future Asbestos Disposal Site(s)

Our present asbestos disposal landfill is approaching the end of it's life unless we apply some possible options or, move elsewhere. We are O.K. for the immediate future, but it is time to prepare a new game plan. For this purpose please plan to meet in the Maintenance Conference Room, Building 33 (Area III Shop) on May 26, 1987 at 1 PM.

It is important that we develope a plan! If there is a problem with this date, please let me know.
