Subject: Asbestos Safety & Handling procedures Audits

The 1982 Caramate presentation of "Asbestos - Safe handling and disposal" which has been placed in each maintenance geographical area has been indeed to be very effective.

We must now all be aware of the message contained therein and continue to be assured that the procedures and necessary audits are completed.

Specifically:

1. All asbestos training and updates are placed on Stairs
2. Procedures check list is followed, respirators, clothing, cleaning of cleanup, protective gloves, [illegible] Glasses, Footwear, safety kept [illegible]
3. Routine audits pin point [illegible] areas & safety problems.

Records of Special Handling:

1. [illegible]
2. Handling [illegible] Special Training Materials.
3. Records from Time's Safety Dept. [illegible]
4. [illegible]
