Subject Insulation Disposal

Gentlemen:

I heard today that there still may be some confusion about asbestos insulation disposal. It must be placed in dumpsters that are taken to Fillmont. I've heard that some bags of asbestos are being thrown in regular dumpsters that go to landfill. This is a violation of OSHA and cannot be tolerated.

By copy of this letter I'm asking E. L. Van Deuren to determine the feasibility of placing "insulation only" dumpsters around the plant. First priority is to place one in Area 3 for the steam line reinsulation crew.

Very truly yours,

L. W. Phair
